

EARLY MOTH SAIL NUMBERS**Compiled by Richard Gibson As at 16 August 2021 1018 boats listed**

This spreadsheet is set up to capture early Australian Moth sail numbers from the national system in use from 1928 to 1961, and the state-based system in use from 1961

until mid-1973. I have recorded numbers from club registers, regatta entries, photos and comments on the Scow Moth Club and Scow Moth and Lowriders pages on Facebook.

Additions, alterations and other comments are always welcome to rgibson@scorpex.net. I am always very pleased to receive copies of any records with boat number information.

#	Name	Skipper	Club	Exists	State	Type	Notes
